Muhammad Adil

Full-Stack Developer · Laravel, PHP, React and AI

Canada (open to remote roles) | muhammad.adilk024@gmail.com | +1 647 966 1710 | muhammadadil.cloud

SUMMARY

Full-stack developer with 5 years of experience, including 2+ years at Tech Joint Solution, a Calgary web agency, building Laravel (PHP) and WordPress applications for business clients. Solo developer on ecommerce, lead-generation and restaurant platforms, and founder of Aatox, building the AI-powered KnowWhere app with Flutter, Kotlin and Gemini. Ships end to end and verifies AI-assisted work with builds, tests and review.

TECHNICAL SKILLS

Languages: PHP, JavaScript, Python, HTML5, CSS3, SQL, Dart, Kotlin; Java and C/C++ (foundations)

Frameworks: Laravel, React, Node.js, Tailwind CSS, Flutter

CMS and Ecommerce: WordPress (custom plugin development), WooCommerce, Shopify, Elementor

Data, APIs, AI and Cloud: MySQL, REST APIs, LLM APIs, AI agents, Supabase, Cloudflare Workers

Practices and Tools: Git, GitHub, Figma, local and technical SEO, structured data, responsive design, performance optimization

EXPERIENCE

Founder · Aatox, independent maker of private tools (aatox.com) 2026 – Present

- Building **KnowWhere**, a voice-first memory assistant for Android (Flutter, Kotlin, Gemini Live, Cloudflare Workers), in development: an encrypted local database and a backend proxy that keeps the API key off the device.
- Integrated real-time voice with tool calling and an on-device fallback, supporting English, Hindi and Urdu, with a native Android widget, Quick Settings tile and background service in Kotlin.

Full-Stack Developer · Tech Joint Solution, Calgary, Canada 2024 – Present

- Build and launch client websites and web applications with Laravel (PHP) and WordPress, as part of a delivery team and as the only developer on several projects.
- Developed **Beauty Supply Call** (beautysupplycall.com), a Laravel ecommerce store for professional beauty equipment with a categorized catalogue, shopping cart, customer accounts and product reviews.
- Developed **BC Scrap Cars** (bcscrapcars.com), a lead-generation site with a multi-step quote form, landing pages for 12 Lower Mainland cities, and FAQ and city structured data for local SEO.
- Developed **Medaan** (medaan.ca), a Laravel website for a Calgary restaurant with menu categories, ordering integrations, Google Maps directions and Restaurant structured data.

Independent Web Developer · Freelance, Canada and Remote 2023 – Present

- Delivered 20+ client websites for travel, consulting, hospitality, ecommerce and nonprofit clients, handling design, development and deployment. Selected work is shown here.
- Built custom-coded WordPress plugins for user roles and permissions, multilingual experiences and listing and search systems.
- Launched SB TraWorld (sb-traworld.com), a bilingual English and German Hajj and Umrah travel platform with packages, destinations, travel updates and an enquiry flow.

EDUCATION

Self-taught developer · web development, Laravel, Python, Java, C/C++ and AI engineering 2021 – Present
